The Strobel Standard Vol 5

ENGINEERING YOUR SUCCESS +5% EARLY ORDER SAVINGS!

At Strobel Manufacturing, **"Better By Design"** is not just a marketing tagline. It is the manufacturing standard we live by every day. From the heavy-duty design to precision welding, every piece of equipment we build is designed to **outlast, outperform, and out-value the competition.**

Built for the Long Haul
Our diverse equipment is engineered to tackle the toughest jobs across agriculture and construction industries. When you stock Strobel, you are offering your customers the ultimate in reliability:

- **Bulk Seed Tenders**: Designed for fast, gentle seed handling to maximize planting efficiency and protect seed integrity. Strobel offers the lowest profile in the industry.
- **Heavy-Duty Forced Ejection Scrapers**: Built with rugged frame construction and optimal weight distribution to handle earthmoving projects with ease.
- **Box Scrapers & Pull-Type Graders**: Engineered for precise leveling, road maintenance, and smooth field finishing.

Secure Your Inventory and Save an Extra 5%

By placing your orders early, you guarantee that your dealership will have the models your customers look for when peak season hits. To reward your foresight and partnership, Strobel Manufacturing is offering an additional 5% cost savings on all eligible dealer orders through December 31.

Let's Build a Successful Season Together.

Strobel

AGRICULTURE | CONSTRUCTION | LAND IMPROVEMENT

PRODUCT SPOTLIGHT

IN STOCK AND READY FOR YOUR CUSTOMERS!

NATIVE GRASS SEEDER

The Strobel Native Grass Seeder is engineered to provide **precise, minimum-till seed placement** with low operational maintenance. Structurally, it features a heavy-duty 6″ x 2″ rectangular tubular steel framework paired with an all-steel seed boot and roller chain drive system. Its dual-box design houses a **small box for cool-season legumes** and a **larger box** tailored for **bulky, fluffy native varieties** like Indian grass, switchgrass, and bluestem.

PRO GRADER

The Strobel Pro Grader is a **highly versatile,** pull-type industrial machine designed for precision earth shaping, agricultural land leveling, ditch maintenance, and snow removal. Operating as a two-in-one implement, it features a **heavy-duty blade** (available in 12, 14, or 16-foot widths) with fold-away end plates that allow it to **instantly convert into a box scraper.** The industry leading five-function blade is capable of hydraulic lift, tilt, angle, roll, and a 5-foot horizontal side-shift.

THANK YOU FOR THE 5-STAR REVIEWS!

WE APPRECIATE YOUR FEEDBACK.

Our success relies on our incredible dealer network. Thank you for taking the time to leave us a review.

Keep them coming!

Positive reviews build trust with potential customers and drive sales for your team.

J Jae

★★★★★

Strobel Mfg is a very well run business. They build quality products offered at a fair price and they back it all up by providing solid parts and service support.

J Jason

★★★★★

Great local manufacturer that takes care of its customers. They are easy to work with. They go above and beyond to take care of their customers.

CUSTOMER APPRECIATION REBATE CONTINUES

In today's farm ecconomy, **every dollar saved makes a difference** when deciding to invest in new equipment.

To support producers we're again offering our cash back rebate program. It's just one more way your customers can **confidently pull the trigger** on their next purchase.

By putting cash directly back into their pocket, this program lowers the barrier to upgrading operations with reliable, top-tier equipment.

DETAILS THAT MAKE A DIFFERENCE

Discover the engineering details and purpose-built features that make the **Strobel Box Scrapers** a leader in durability, performance, and lasting value.

HITTING THE FARM SHOW CIRCUIT

It has been a busy farm show season for Strobel Manufacturing. From connecting with industry influencers to catching up with local dealers and partnering with key distributors, here's a look at where we've been and the highlights from our recent stops.

Connecting with "Sonne Farms" at Dakota Fest

Our first major stop brought us to Dakota Fest, where we had the opportunity to catch up with popular farm influencer Cole Sonne from Sonne Farms. Cole is implementing the Strobel FE 1210 into his operation. Search Sonne Farms on YouTube to see the **Strobel FE 1210 in action.**

Short Haul to Husker Harvest Days

Strobel Manufacturing has been a staple at HHD for over 25 years. Being so close, we look forward to impromtu visits from our "local" dealers. These partnerships are the backbone of Strobel Manufacturing, and we truly value the face-to-face time to discuss how we can continue supporting you and your customers.

Teamed Up with SISCO at Farm Science Review

Further east, we teamed up with our trusted distributor partner, Superior Implement and Supply Company at the Farm Science Review Show in London, OH. Mike Diercks was on hand with Strobel Seed Tenders and Srapers on the SISCO lot. We appreciate their partnership.

Thank you to everyone who stopped by our booths and caught up with our team!
